PXD021013: conditional response in synthesized peptide pools
Unknown purity/loading and synthesis effects remain confounded
Frozen pool-held-out comparison
RMSE: centered log10 measured MS1 signal
Validation
Test
Zero
Length ridge
Sequence ridge
Nonlinear ensemble
Sequence ridge: test
R²=0.253, Spearman=0.526
Predicted centered log10 signal
Measured centered log10 signal
Nonlinear ensemble: test
R²=0.276, Spearman=0.547
Predicted centered log10 signal
Measured centered log10 signal
