18 selected standards · 13 precursor-gene folds · development estimates
No gain from sequence features
Equal-peptide RMSE, log10 signal
0.747
0.678
0.682
Fixed dose slope
Learned dose slope
Dose + sequence
At fixed dose, predictions vary little
Predicted mean log10 signal at 1 fmol
Observed mean log10 signal at 1 fmol
Learned dose slope
Dose + sequence
Perfect agreement
