Native-cell peptide treatment response: fixed held-out-parent comparison
Lower is better; this is not APC concentration prediction
Validation · Exact + bounded loss
Validation · Exact-value RMSE (log10 ratio)
Test · Exact + bounded loss
Test · Exact-value RMSE (log10 ratio)
No change
Exact training mean
Censored constant
Condition only
Direct shared sequence
Direct compound × sequence
Uniform cleavage · exact
Uniform cleavage · sampled
Sequence cleavage · exact
Sequence cleavage · sampled
